FOR IMMEDIATE RELEASE

Hohenfels Training Area training advisory for May 2-12, 2016

HOHENFELS, Germany (Apr 28, 2016)

This is an informational advisory for the communities around the Hohenfels Training Area. Times and locations of activities in this announcement may change due to weather conditions or as determined necessary by airspace authorities. This release is not all inclusive, it is meant to provide information about potential noise generating events for the local population.

May 2-12: NATO personnel will be conducting small arms live fire training within the confines of the Hohenfels Training Area. All residents around the training area are requested to refrain from entering the training area except through approved gates, and to limit travel to main routes during these days. Do not attempt to bypass any road closures in the training area.

Additionally, the Schmidmuhlen Gate and road will be closed on 4-5 May, between 0700 – 2130.

The Joint Multinational Readiness Center is conscious of the impact that training activities have on the local community. We strive to be good members of the community and provide information about what we do. Whenever possible, we avoid training that will inconvenience the local community. We schedule the majority of our training events during weekdays and normal work day hours. Some military training requires training during hours of darkness, and sometimes scheduling requires training on the weekends. The Hohenfels Training Area serves a wide variety of customers, Bundeswehr, Luftwaffe, U.S. military, other NATO Allies, and more. For more information, go to www.eur.army.mil/jmtc.
